# Welcome Notes

**Prof. Dr. dr. Ismail Hadisoebroto., Sp.OT, SubSp.P.L(K)**

As an **orthopaedic surgeon** dedicated to **hip and knee reconstruction**, I have witnessed how **precision, planning, and technological advancement** have redefined what is possible in **restoring mobility**. The evolution of joint surgery today is no longer limited to intervention—it is about enabling patients to regain **independence, dignity, and quality of life** with greater confidence and speed.

In addition to **reconstructive joint surgery**, my clinical interest includes **pelvic and acetabular fracture surgery** — a complex **subspecialty in orthopaedic trauma** that demands **careful preoperative planning**, deep **anatomical understanding**, and a commitment to optimising **long-term functional outcomes** for patients.

**Orthovolution** is born from this very conviction. It is not merely a scientific gathering, but a platform where **expertise, innovation, and clinical excellence** converge. Through this initiative, we aim to foster **meaningful exchange** among peers and to accelerate the adoption of **advanced, evidence-based orthopaedic practices** in Indonesia.

At **Siloam Hospitals Mampang**, we remain deeply committed to advancing **orthopaedic care** through **integrated approaches** and **precision-driven solutions**. It is our hope that Orthovolution will contribute to shaping a **stronger, more progressive future for orthopaedics**—both nationally and beyond

**Prof. Dr. dr. Andri M T Lubis, Sp.OT, SubSp.CO(K)**

Throughout my experience in managing **complex orthopaedic reconstruction** and **deformity cases**, I have come to understand that **excellence** lies in the ability to **continuously adapt**—integrating **deep clinical expertise** with **evolving surgical techniques and technologies**.

**Orthovolution** represents our shared commitment to that **pursuit of excellence**. It is designed as a forum where **orthopaedic professionals** can engage in **high-level discourse, exchange insights**, and explore **innovations** that directly address the **complexities we face in daily practice**.

We believe that the **future of orthopaedics** in Indonesia will be defined by those who are willing to **lead change**—not only by adopting **new technologies**, but by **redefining standards of care**. It is with great pride that we present Orthovolution as a **catalyst for that transformation**.

At **Siloam Hospitals Mampang**, this commitment extends far beyond **Orthovolution**. We see this not as a **singular initiative**, but as part of a **broader, long-term strategic direction**—to continuously advance **orthopaedic care** through the integration of **clinical excellence, innovation, and emerging technologies**.

# Welcome Notes

**dr. Henry Suhendra, Sp.OT, SubSp.CO(K)**

In **orthopaedic practice**, particularly in **joint reconstruction**, success is never the result of a single step. It is the culmination of **meticulous planning, surgical precision**, and a deep understanding of each patient's **unique condition**.

**Orthovolution** reflects our commitment to advancing this **standard of care**. By bringing together **clinicians, experts, and innovators**, we aim to highlight how **precision-driven approaches** and **technological integration** can significantly improve **surgical outcomes** and **recovery pathways**.

At **Siloam Hospitals Mampang**, we believe that the true measure of progress lies in our ability to deliver **consistent, high-quality results** for our patients. Through **Orthovolution**, we seek to inspire a **collective movement** toward more **refined, patient-centered orthopaedic care**.

**dr. S. Dohar A. L. Tobing, Sp.OT, SubSp.OTB(K)**

The field of **musculoskeletal oncology** demands not only **technical expertise**, but also a **comprehensive and multidisciplinary approach**. Each case presents a **unique challenge**, requiring **careful coordination, precision**, and a deep commitment to achieving the **best possible outcome** for the patient.

**Orthovolution** serves as an important platform to strengthen this **collaborative spirit**. It brings together **diverse expertise** to address **complex clinical challenges**, while also encouraging the **exchange of knowledge** that is essential for advancing **orthopaedic oncology** and related disciplines.

We are honored to be part of an initiative that aspires to **elevate the standard of orthopaedic care in Indonesia**. Through **Orthovolution**, we hope to contribute to a future where **innovation, collaboration, and excellence** continue to drive **meaningful progress** in our field.

# Siloam Hospitals Mampang

## CENTER OF EXCELLENCE OF ORTHOPAEDIC

**Siloam Hospitals Mampang**, part of Siloam International Hospitals -one of Indonesia's largest private healthcare networks - is strategically positioned in South Jakarta to deliver high-quality, patient-centered care, supported by advanced medical technology and a strong team of specialists.

Building on its established Centers of Excellence, with orthopaedics as a key pillar, the hospital is advancing toward becoming a dedicated Orthopaedic Hospital - responding to the rapidly growing demand for comprehensive musculoskeletal care in Indonesia.

This transformation goes beyond capability - it is about redefining the standard of orthopaedic care. By combining clinical excellence, cutting-edge technology, and an integrated patient journey, Siloam Hospitals Mampang is aimed to become a leading destination for orthopaedic services - from early diagnosis and prevention to advanced surgical intervention and rehabilitation.

Through this journey, we aim to not only elevate outcomes, but also expand access, drive innovation, and shape the future of orthopaedic care in Indonesia.

The main title of the document, "Siloam ORTHOVOLUTION 2026", is centered in a large, white, sans-serif font. The word "Siloam" is at the top, followed by "ORTHO" and "VOLUTION" in a larger size, with a circular icon containing a stylized human figure and a checkmark between them. The year "2026" is at the bottom. The background is a dark blue gradient with faint, glowing anatomical illustrations of a spine and a knee joint.

## BACKGROUND

In recent years, the development of science and technology in the field of orthopaedics has advanced at an exceptionally rapid pace.

Progress in robotics, surgical navigation, implant design, and regenerative biological therapies such as stem cells and orthobiologics has brought about significant changes in the management of musculoskeletal injuries and disorders. These innovations offer higher levels of precision, lower risks of complications, and faster patient recovery, thereby elevating the standards of orthopaedic care toward a more modern and effective practice.

The delivery of high-quality orthopaedic services, however, is not solely determined by technological sophistication. It also relies heavily on clinical expertise, sound clinical judgment, and patients' trust in the medical recommendations provided. Patients require clear, decisive, and evidence-based guidance to ensure confidence that the chosen management strategy is the most appropriate for their condition.

Therefore, it is essential for physicians and healthcare professionals to continuously update their knowledge and skills while maintaining a clear understanding of the latest directions in orthopaedic practice.

## OBJECTIVES

To introduce **Siloam Hospitals Mampang** as a comprehensive orthopaedic care center and a national referral hub for the management of complex musculoskeletal cases.

To provide **orthopaedic scientific updates** through symposia, case discussions, expert panels, and live surgical demonstrations.

To strengthen orthopaedic care standards within the Siloam network and across Indonesia by integrating **best practices, innovation, and multidisciplinary** approach.

To enhance the knowledge and skills of healthcare professionals regarding the latest advancements in **robotic technology, surgical navigation, implant design, and orthobiologic therapies**.

To unite key healthcare stakeholders in a strategic platform that **strengthens collaboration and drives sustainable partnerships**.

## KEY TOPICS

Foot and Ankle

Hip & Knee

Robotic

Spine

Sport Injury

# Rundown

 Park Hyatt, Jakarta

 06 June 2026

## MAIN BALLROOM

07:00 - 08:00	Re-registration & Open Gate
08:30 - 10.20	Opening & Welcoming Speech
	<p><b>Plenary Lecture 1:</b> Challenging The Status Quo: is Mechanical Alignment Still The Gold Standard For Patient Outcomes?  <b>Speaker</b> : Dr. Peter Gifford, BSc (PT), MBBS, FRACS (Orth)  <b>Moderator</b> : Prof. Dr. dr. Ismail Hadi Soebroto Diligo, SpOT., SubSp.PL(K)</p>
	<p><b>Plenary Lecture 2:</b> Stem Cells and Secretome in Clinical Applications for Orthopaedic and Traumatologic Problems: Lessons from KMK No. 1359 of 2024  <b>Speaker</b> : Prof. Dr. dr. Ismail Hadi Soebroto Diligo, SpOT., SubSp.PL(K)  <b>Moderator</b> : dr. Gerald Wongokusuma, Sp.OT</p>

10.20 - 10.30 **Coffee Break**

## BALLROOM 1 (RESIDENCES 1)

10.30 - 11.30	<p><b>Session A: Sports Injury</b></p> <p>How To Increase Success Rate of Meniscal Repair  <b>Speaker</b> : dr. Isa An Nagib, Sp.OT, SubSp.CO(K), FICS</p> <p>Osteochondral Lesion Talus, The Current Concept  <b>Speaker</b> : dr. Langga Sintong, Sp.OT (K)</p> <p>Pre-Rehabilitation and Return-to-Sport Decision Making in Knee and Ankle Injuries  <b>Speaker</b> : dr. Antonius Andi Kurniawan, Sp.KO., Subsp.ALK(K)</p>
---------------	--

11.30- 11.45 **Q & A | Moderator:** dr. Gerald Wonggokusuma, Sp.OT

12.00 - 13.00 **ISOMA**

13.00 - 14.20	<p><b>Session B: Osteoarthritis</b></p> <p>Comprehensive Management of Osteoarthritis: From Early Intervention to Surgical Candidacy and Preoperative Optimization  <b>Speaker</b> : dr. Ivan Mucharry Dalitan, Sp.OT, SubSp.PL(K)</p> <p>Rehabilitation Management of Knee Osteoarthritis  <b>Speaker</b> : dr. Ira Mistivani, Sp.KFR. N.M (K)</p> <p>Redefining Anesthesia in Total Knee Arthroplasty; Integrating Enhanced Recovery After Surgery (ERAS) Principles  <b>Speaker</b> : dr. Fransisca Dewi Kumala, Sp.An</p>
---------------	---

14.20 - 14.40 **Q & A**  
**Moderator:** dr. I Made Yudi Mahardika, Sp.OT

14.40 - 15.00	<p><b>Session C: Low Back Pain</b></p> <p>It's Not Just A Disc: Finding The True Pain Originator in Low Back Pain  <b>Speaker</b> : dr. Suryadi Wirawan, SpOT (K)</p>
---------------	---

15.00- 15.10 **Q & A | Moderator:** dr. S. Dohar AL. Tobing, Sp.OT., SubSp.OTB(K)

15.10 - 15.30 **Coffee Break**

15.30 - 16.00 **Closing + Doorprize**

## BALLROOM 2 (RESIDENCES 3)

10.30 - 12.00	<p><b>Live Surgery-Case Discussion 1: Robotic Assisted Total Knee Replacement Surgery</b></p> <p>Surgeon 1: <b>Dr Peter Gifford, BSc (PT), MBBS, FRACS (Orth)</b></p> <p>Surgeon 2: <b>dr. Ivan Mucharry Dalitan, Sp.OT, SubSp.PL(K)</b></p> <p>Moderator:  <b>Prof. Dr. dr. Ismail Hadi Soebroto Diligo, Sp.OT. SubSp.PL(K)</b></p>
---------------	--

13.00 - 14.30	<p><b>Live Surgery-Case Discussion 2 : All-Inside ACL Reconstruction Surgery and Meniscus Repair</b></p> <p>Surgeon 1: <b>Prof. Dr. dr. Andri MT. Lubis., Sp.OT.,SubSp.CO(K)</b></p> <p>Surgeon 2: <b>dr. Dody Kurniawan, SpOT</b></p> <p>Moderator: <b>dr. Isa An Nagib, Sp.OT., SubSp.CO(K) FICS</b></p>
---------------	--

14.30 - 14.45 **Coffee Break**

14.45 - 15.45	<p><b>Live Surgery-Case Discussion 3: - Direct Anterior Approach Total Hip Replacement Surgery</b></p> <p>Surgeon 1: <b>Dr Peter Gifford, BSc (PT), MBBS, FRACS (Orth)</b></p> <p>Surgeon 2: <b>dr. Mohammad Triadi Wijaya, Sp.OT, SubSp.PL(K)</b></p> <p>Moderator:  <b>Prof. Dr. dr. Ismail Hadisoebroto Diligo, Sp.OT, SubSp.PL(K)</b></p>
---------------	---

# Registration Package

## Symposium Package

Recommended for Specialist, GP/Resident, Student, Nurse and others.

	<b>Early Bird</b> (until 1 May 2026)	<b>Normal Price</b>
<b>Specialist</b>	<b>Rp700,000</b>	Rp1,000,000
<b>GP / Resident</b>	<b>Rp200,000</b>	Rp500,000
<b>Student / Nurse / Others</b>	<b>Rp150,000</b>	Rp300,000

\*This package will include all access to symposium.

## Live Surgery Package

Recommended for Specialist, GP/Resident

	<b>Early Bird</b> (until 1 May 2026)	<b>Normal Price</b>
<b>Specialist</b>	<b>Rp1,000,000</b>	Rp1,500,000
<b>GP / Resident</b>	<b>Rp500,000</b>	Rp1,000,000

\*This package will include all access to symposium and live surgery.

# Participants

## Symposium

### Participants are:

- 👤 Orthopaedic Surgeons
- 👤 Anesthesiologists
- 👤 Physical Medicine and Rehabilitation Specialists
- 👤 Neurologists
- 👤 Sports Medicine Specialists
- 👤 General Practitioners
- 👤 Occupational Medicine Specialists
- 👤 Radiologists
- 👤 Residents
- 👤 Medical Students
- 👤 Physiotherapists
- 👤 Nurses

## Live Surgery

### Participants are:

- 👤 Orthopaedic Surgeons
- 👤 Anesthesiologists
- 👤 General Practitioners/Residents

# Venue Park Hyatt Jakarta

★★★★★ 5-STAR HOTEL

Park Hyatt Jakarta is a luxurious 5-star hotel located in the heart of Jakarta's business district. The hotel offers world-class amenities, elegant accommodations, and exceptional service. With its prime location, guests can easily access major business centers, shopping districts, and cultural attractions. The hotel features spacious rooms and suites, multiple dining options, a state-of-the-art fitness center, and a stunning outdoor pool.
